

After years of successful services to Oil & Gas industries, and on the basis of valuable experience of partnership with engineering and manufacturing companies, Tecom International is proud to introduce its new range of services for Nuovo Pignone (GE) equipments.

We are able to provide almost any spare parts for Nuovo Pignone equipments including Gas & Steam Turbines, Compressors, Pumps, while our technical services include Refurbishment and Overhaul by specialized Italian engineers.

Our team is eager to satisfy the growing demand of the market for NP spare parts and services with competitive solutions.

We welcome any inquiries or questions and take into consideration each request carefully. For us a project is concluded only when we know that the client is satisfied.

Gas & Steam Turbines, Compressors, Pumps, Replacement Parts Refurbishment, Overhaul, Technical Services

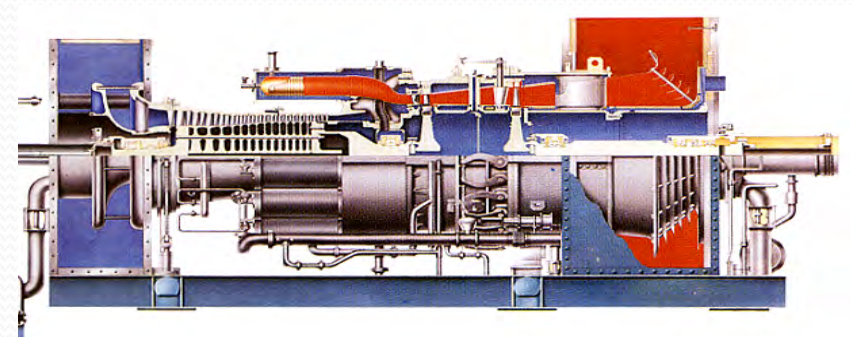

- We are active since more than 8 years providing Engineering, Manufacturing and Supply of all Replacement Parts for Machinery in Oil & Gas services
- Engineering staff has long time experience of engineering activities and reverse engineering, executing successfully design of single components, machinery parts and packaging of complete unit as well as coordination of job site overhauling activities
- The Company started in 2006 with a group of specialists having more than 35 years of experience
- Built upon a long tradition of engineering know-how and knowledge of supply network in Italy - Western Europe - USA
- Active mainly in Middle East area, Russia, Ukraine, Africa and focusing primarily on Gas Turbine & Compressor spare parts

Gas Turbines

We have a team of very experienced and qualified Engineers and Technical Consultants with full capability to help and support Customers providing not only parts but also technical assistance, consultancy and refurbishment or overhauling of parts or complete units.

All parts are supplied for the following Machines:

- **PGT5**
- **PGT10 - GE10/1 - GE10/2**
- **MS3002**
- **MS5001**
- **MS5002-B-C-D**
- **MS6001B**
- **Centrifugal Compressors – Steam Turbines**

Capabilities & Quality

Replacement parts are provided for industrial gas turbine and Compressors of G.E. and Siemens technology, with full technical compliance.

All the parts that we supply are 100% like originals all technical data are available , we work with Raw material suppliers and Machining suppliers that are very familiar with the same components.

- **Chemical analysis, X-ray**
- **Serial Number List**
- **Certificate Of Conformity**

GREEN PROCUREMENT POLICY

Tecom International Company is committed in a sustainable development by establishing goals related to eco sustainability, satisfying and supporting the needs of the present without compromise future generations.

We adopt Green Procurement values to direct our attention towards sustainable procurement and growth, minimizing the environmental impact through the lifecycle of products and services.

1. We are committed to operate our business with a focus on protection of our Environment.
2. We are committed to reducing environmental impact in Procurement of materials and using of services by effectively utilizing the available HSE (Health Safety Environment) documents in compliance with all relevant regulatory requirements.
3. Sustainable Economy is a type of economy that provides that economic development of a Company should be socially, economically and environmentally sustainable, in order to allow resources to regenerate.
4. We work with suppliers who support our fundamental values, such as, involvement, quality and business excellence.
5. We engage our maximum number of suppliers in our Green Procurement to promote Environmental objectives.
6. We involve and encourage lesser consumption of resources such as, energy, water and other natural resources, minimizing the quantity of prints to limit the waste of paper and reduce the use of plastic.
7. We are committed to managing optimally the separate collection of waste and we provide a proper environmental education to employees, to increase the awareness and the sensitization to recycle and optimal management of waste.
8. We promote the purchase and the use of Environmental preferable products.

In applying this Policy we encourage many Companies, suppliers, clients to use an attitude as Ecological as possible, favoring Environmental wealth and prosperity in order to safeguard our Planet.

By protecting the Environment, we promote the Economic growth.

POLITICA DI APPROVVIGIONAMENTO ECOLOGICA

La Compagnia Tecom International è impegnata in uno sviluppo sostenibile stabilendo obiettivi legati all'ecosostenibilità soddisfacendo e sostenendo i bisogni del presente senza compromettere le future generazioni.

Adottiamo i valori dell'Approvvigionamento Ecologico, per indirizzare la nostra attenzione verso appalti e crescita sostenibili, minimizzando l'impatto ambientale attraverso il ciclo di vita dei prodotti e dei servizi.

1. Siamo impegnati a gestire il nostro business con attenzione sulla protezione del nostro Ambiente.
2. Ci impegniamo a ridurre l'impatto ambientale nell'approvvigionamento di materiali e nell'utilizzo di servizi, servendoci efficacemente dei documenti disponibili HSE (Health Safety Environment), nel rispetto di tutti i requisiti normativi pertinenti.
3. L'economia sostenibile è un tipo di economia che prevede che lo sviluppo economico di una società debba essere sostenibile a livello sociale, economico e ambientale, in modo da permettere alle risorse di rigenerarsi.
4. Lavoriamo con fornitori che supportino i nostri valori fondamentali, quali impegno, qualità ed eccellenza nel business.
5. Ingaggiamo il nostro maggior numero di fornitori negli approvvigionamenti Ecologici per promuovere gli obiettivi ambientali.
6. Coinvolgiamo ed incoraggiamo il minor consumo di risorse, quali energia, acqua ed altre risorse naturali riducendo inoltre le quantità di stampe per limitare lo spreco di carta e ridurre l'uso della plastica.
7. Ci impegniamo a gestire in modo ottimale la raccolta differenziata e forniamo un'adeguata educazione ambientalista agli impiegati per accrescere la consapevolezza e la sensibilizzazione al riciclo e alla gestione ottimale dei rifiuti.
8. Promuoviamo l'acquisto e l'uso di prodotti preferibili per l'ambiente.

Utilizzando questa Politica, possiamo incoraggiare molte Compagnie, fornitori, clienti ad utilizzare un atteggiamento il più possibile Ecologico, favorendo benessere e prosperità Ambientale al fine di salvaguardare il nostro Pianeta. Proteggendo l'ambiente, promuoviamo la crescita economica.

TECOM INTERNATIONAL SRLS

INDUSTRIAL SERVICES & SOLUTIONS

ABOUT US:

Tecom International is a young and at the same time well-established Company, mainly but not only focused on supply of industrial machines, equipment and spare parts. Through years of hard work, continuous learning and by committing to a policy of providing a global service to the client, we have been able to carve out an outstanding role as a reliable international supplier for industries.

Our main field of activity is supply of instruments and spare parts to Oil & Gas industries, sourcing from international manufacturers (mainly European and American) and exporting mainly to middle-east Oil & Gas industries.

Our potential:

What lies behind us and what lies before us are tiny matters comparing to what lies within us. The small size of the Company combined with our young and at the same time experienced team makes us highly dynamic and agile. We take pride in providing our services to some internationally renowned companies and our customers' satisfaction implies the efficiency of our services and the professionalism of our team.

Knowledge & Policy:

Long experience in business, good knowledge of the market and its requirements and solid contacts with most famous and important Italian and International industrial manufacturers / suppliers has made of Tecom International an ideal partner for industries in general.

We consider our clients as our real partners, and “cooperation” in its pure sense of word is our priority. That is why initiating business relations with a new partner; we do believe our cooperation will last long, growing fast and continuously; our present customers are a proof of this fact.

We, at Tecom International, have high expectations of ourselves; we are eager to improve the quality of our services and our goal is to expand our market and establish relations with new customers.

Products:

The major part of our customers are petrochemical Companies with an extremely wide range of requirements; we are proud we have been able to cover many different types of their requests. Follows a brief list of our products:

- Automation
- Instrumentation
- Valves: Ball, Globe, Gate, Check, Choke, Butterfly, DBB, Pressure relief, manifolds
- Pumps: centrifugal, screw, cavity, piston, gear, diaphragm

- Firefighting equipment / Personal safety & rescue products
- Fire, smoke, heat detection
- Turbines
- Electric motors and drives
- Explosion proof equipment
- Compressors
- Heat exchangers
- Pipes & fittings
- Mechanical seals
- Filtration technologies
- Chemical agents
- Spare parts
